

# nrG BLACKeDITION

The new 2015 Blackedition 800Nm Garage Door operator by NRG is compatible with a variety of Teleco transmitters, wall switches and keypads offering more choice and more control.

The Blackedition features Soft Start and Soft Stop meaning the garage door will open and close quietly and smoothly.

Safety is at the heart of the Blackedition and as well as a manual release system, the built in obstacle detection will securely stop the door if it encounters an obstacle, giving you peace of mind
